# KENTUCKY HAS URBAN GROWTH

Durand Hands Out More Census Figures.

## CITIES SHOW LARGEST GAINS

Towns and Villages Fail to Keep Step in March of Progress, Many Being Almost Entirely Depopulated by Movement Toward Larger Centers of Population—Maysville Is Only Place of Importance That Slipped a Cog, Having Fewer People Within Her Borders Than in 1900.

Washington, D. C.—(Special.)—E. Dana Durand, chief director of the census department, has made public the figures showing the population of every city, town and village in Kentucky.

These figures show that the Blue Grass state has 58 cities, seven of which—Louisville, Lexington, Newport, Paducah, Owensboro, Henderson and Frankfort—have population in excess of 10,000. Eleven cities have population ranging from 5,000 to 10,000. They are, in order of size, as follows: Hopkinsville, Bowling Green, Ashland, Middlesboro, Winchester, Dayton, Bellevue, Maysville, Mayfield, Danville and Richmond. There are 300 towns and 31 villages, making a total of 389 incorporations.

Analysis of the figures shows that Kentucky, like her sister states of the middle west, has grown cityfied during the past decade, in other words the tide of migration has been from the rural districts and smaller towns toward the larger centers of population. In many of the villages the population is below the 1900 mark. In the cities of between 5,000 and 10,000 Maysville is the only one that failed to keep step in the march of progress.

The population returns will be used as the basis for changing ward boundaries in every incorporated municipality in Kentucky and may be used by boards of education to change the school districts. These figures also will be used in redistricting the state for congressional and senatorial purposes.
